

Declaration of Compliance with Resolution of the Cabinet of Ministers of Ukraine No. 1147 dated December 30, 2015

Date of Declaration: February 13, 2025

Company Name: Piping System Pte. Ltd.

Company Address: Singapore

We, Piping System Pte. Ltd., hereby declare our compliance with Resolution of the Cabinet of Ministers of Ukraine No. 1147 dated December 30, 2015, in relation to the following aspects relevant to our operations and products:

1. Product Standards

Our piping systems and related products intended for the Ukrainian market are designed, manufactured, and tested in accordance with the technical regulations and standards as specified in Resolution No. 1147. This includes but is not limited to requirements regarding material quality, dimensional accuracy, pressure - bearing capacity, and corrosion resistance.

All raw materials used in the production of our piping systems meet the minimum quality requirements set by the Resolution. We maintain strict control over our supply chain to ensure that only compliant materials are incorporated into our products.

2. Documentation and Certification

We possess all the necessary documentation to prove the compliance of our products. This includes product specifications, test reports from accredited laboratories, and certificates of conformity issued in accordance with Ukrainian regulations.

For each batch of piping systems exported to Ukraine, we ensure that the required documentation is provided to the importer or relevant authorities in Ukraine. This documentation clearly states the product characteristics, compliance with applicable standards, and any other information as required by Resolution No. 1147.

3. Traceability

We have established a comprehensive traceability system for our piping products. This system allows us to track the origin of raw materials, the production process of each product, and the distribution channels through which our products reach the market. In case of any non - compliance issues, we can quickly identify the affected products and take appropriate corrective actions.

Each product is marked with unique identification numbers or codes that are linked to our internal traceability database. This enables easy identification and recall, if necessary, in line with the requirements of the Resolution.

4. Production and Quality Control

Our production facilities are equipped with state - of - the - art machinery and equipment that enables us to produce piping systems in compliance with the Resolution. We regularly maintain and calibrate our production and testing equipment to ensure consistent quality.

A rigorous quality control program is in place at all stages of production, from raw material

inspection to final product testing. Our quality control personnel are trained to apply the requirements of Resolution No. 1147 in their daily work, and we conduct regular internal audits to ensure the effectiveness of our quality control system.

We understand that non - compliance with Resolution of the Cabinet of Ministers of Ukraine No. 1147 may result in legal consequences and damage to our business reputation. Therefore, we are committed to upholding the highest standards of compliance and will continue to monitor and improve our operations to ensure ongoing compliance with this Resolution.
